To please read carefully before use! You are obliged to include this user information when passing on the personal safety equipment (PSE) or to hand it over to the recipient. For that purpose, this user information can be reproduced in unlimited quantities and downloaded at [www.feldmann.de](http://www.feldmann.de).

CE - Diese Handschuhe sind als persönliche Schutzausrüstung (PSA) zertifiziert. Das CE-Zeichen zeigt, dass dieses Produkt den Anforderungen der Verordnung (EU) 2016/425 entspricht.  
CE - These gloves are certified as personal safety equipment (PSE). The CE symbol shows that this product meets the requirements of Regulation (EU) 2016/425.

Information of the manufacturer according to Regulation (EU) 2016/425, Annex I, Section 1.4 (Official Journal of the European Union).  
Art. 452 - FARNHAM  
PPE category 3  
EN 13997-1999 (12.00XL)

Information of the manufacturer according to Regulation (EU) 2016/425, Annex I, Section 1.4 (Official Journal of the European Union).  
Art. 452 - FARNHAM  
PPE category 3  
EN 13997-1999 (12.00XL)

Table with 5 columns: Test criteria, Evaluation, and Test results for Abrasion resistance, Tear resistance, and Puncture resistance.

The higher the number the better the test result. X indicates that the glove has not been tested or the test method appears not to be suitable for the gloves design or material.

Table with 5 columns: Test criteria, Evaluation, and Test results for Thermal risks, including Limited flexion, Contact heat, Convective heat, and Steam heat.

Protective gloves against hazardous chemicals and microorganisms: EN ISO 374-1:2016 + A1:2016 part 1: Terminology and performance requirements for chemical risk.

Table with 5 columns: Letter, Test chemical, CAS-No., Class, and EN ISO 374-4:2019 Ergonorm results.

Protection classification - Type A (in at least 5 test chemicals, this protective glove achieves at least protection index 2).

Table with 5 columns: Amenable quality limit (AQL), and Ergonorm AQL 1.5 results for various tests.

Definition: Degradation: Harmful modification of one or more properties of a material for protective gloves as a result of contact with a chemical.

Warning notices: This information does not reflect the actual duration of protection in the workplace and the differentiation between mixtures and pure chemicals.

General instructions: This information is intended as assistance in selecting your safety equipment. Laboratory tests offer help in choosing, but they cannot evaluate the conditions of the actual workplace.

Cleaning and care: For cleaning commercially available cleaning products is recommended (such as brushes, polishing cloths, etc.).

Packaging, storage and disposal: The product is made of recyclable cardboard. The smallest packaging unit is supplied in PE bags or similar environmentally friendly enclosures.

Material composition / the product consists of: 40% Polyamide, 30% HPPE, 10% Polyester, 10% glass fibre, 5% Steel fibre, 5% Elastane (Spandex), white.

Health restrictions: The use of the product may cause allergic reactions. If allergic reactions occur, it is recommended not to use this glove for the time being and to seek medical advice.

Name and address of the manufacturer: HELMUT FELDTMANN GmbH, Bräunroter Weg 28, D-21244 Buchholz/Nordheide.

The manufacturer was examined under PPE regulation (EU) 2016/425 Annex I, Module D, by the notified body no. 0598.

Notified body responsible for performing the CE examination: SATRA Technology Europe Limited, Zuffenburger Platz 4, D-70499 Stuttgart.

Notified body no.: 2777

CE 2777
